## INTERN ARCHITECT

Creative and detail-oriented Intern Architect with 2+ years of experience focusing on sustainable building and design. Skilled in 3D modeling, graphic design, and computer-aided design. Enthusiastic about integrating technology, such as AI and VR, into architecture.

## EXPERIENCE

---

### Intern Architect

Tav Group, Haifa

2021 – Present

- Assist in the design and development of sustainable architecture projects, focusing on integrating ecological perspectives.
- Prepare detailed architectural blueprints and 3D models, ensuring precision and adherence to project specifications.
- Collaborate with senior architects on community-oriented projects, such as the Café Tav, emphasizing sustainable and environmentally friendly practices.
- Participate in client meetings, presenting design concepts and incorporating feedback to refine project outcomes.
- Manage project documentation and maintain accurate records of design iterations and client communications.
- Engage in interdisciplinary collaboration with engineers, landscape architects, and urban planners to create holistic and integrated design solutions.

## PORTFOLIO

- Native speaker of Arabic

## **Research Assistant**

Fair Transport Lab, Technion

2023–2024

- Oversee the maintenance of the lab’s website, ensuring up-to-date and accurate content.
- Collaborate with researchers to interpret data and present findings in an accessible manner.
- Assist in the development and dissemination of research materials, including reports and presentations.
- Engage in ongoing research projects, contributing to data collection and analysis efforts.

## **Architecture Instructor**

Architecture Summer Camp,  
Technion

2019 – Present

- Teach architecture concepts to elementary and middle school students, fostering early interest in the field.
- Develop and lead engaging workshops focused on sustainable design and architectural history.
- Create hands-on activities that introduce students to basic architectural principles and the importance of environmental responsibility.
- Guide students through projects that encourage creativity, critical thinking, and practical application of architectural concepts.

## **Volunteer Tutor**

Perach Project, Haifa

2018 – 2021

- Assisted school-age children and teens from underprivileged backgrounds.
- Provided academic support and mentorship, fostering a love for learning and helping students achieve their educational goals.

## **SKILLS**

---

- Architectural Design
- 3D Modeling
- Graphic Design
- Computer-Aided Design (CAD)
- AI and VR Integration
- Sustainable Design
- Client Relations
- Project Management
- Team Collaboration
- Workshop Development
- Technical Writing
- Video Editing
- Website Maintenance

## **Co-founder of Tiny Architect**

Special Project: Architecture                      2023 – Present  
Workshop for kids

- Developed a unique educational program aimed at introducing young Arab children (ages 4 to 7) to the world of architecture.
- Designed and implemented interactive activities and materials to inspire an early appreciation for the built environment.
- Focused on incorporating elements of Arab and regional architecture to foster cultural awareness.
- Conducted workshops and hands-on sessions that encouraged creativity and spatial understanding in young minds..

## **EDUCATION**

---

### **Bachelor of Architecture**

Technion – Israel Institute of Technology  
Graduated Nov 2024
